Information letter for additional pregnancy needs and initial baby equipment in accordance with §§ 3, 6 AsylbLG

More need because of pregnancy:

Pregnant female asylum seekers who are entitled to benefits in accordance with § 3 AsylbLG can assert a claim to additional pregnancy needs at the Foreigners' Office - Asylum Seeker Benefits Act. In particular, benefits are granted which are indispensable in individual cases for securing a livelihood.

To this end, we ask you to submit a medical certificate which shows what specific expenses have been incurred / will be incurred as a result of the pregnancy (e.g. folic acid preparations). In addition, the actual expenses must be proven, so that the costs are reimbursed after presentation of the corresponding receipts.

We expressly point out that there is no entitlement to a lump-sum additional requirement due to pregnancy.

Additional requirement for initial baby equipment:

Asylum seekers who expect a child can apply for initial baby equipment one month before the planned date of birth at the Aliens' Registration Office - Asylum Seeker Benefits Act. After examination of the individual case, the initial baby equipment is granted in the form of benefits in kind and goods vouchers. The initial equipment package includes:

- Baby bathtub and bath thermometer
- digital clinical thermometer
- comb, brush
- 2 bottles and a bottle cleaner
- first clothing (4 bodies, 4 rompers, 4 tops, 1 pyjamas, first socks, jacket, cap)

You will also receive the following initial equipment in the form of benefits in kind:

- Baby cot with mattress (remains the property of the Garmisch-Partenkirchen District Office)
- Stroller (becomes your property)

Please note that there is no entitlement to lump-sum cash benefits / vouchers.

The application for additional needs during pregnancy as well as initial equipment for babies must be submitted using the application forms to the District Office Garmisch-Partenkirchen - Asylum Seeker Benefits.
